HOW TO MEASURE

- For best results, have someone else take measurements.
- Measure body in underwear.
- Tape must be snug but not tight.
- If measurements fall between two sizes, order the larger size.

1 HEAD	Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.
2 ARM LENGTH	Let the hands hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.
3 CHEST/BUST	Measure under your arms, around the fullest part of your chest.
4 WAIST	Measure around your natural waistline, keeping one finger between the tape and body.
5 HIPS	Across the fullest part of the seat.
6 INSEAM	Without shoes, from crotch to the floor.

WHAT CODE REPRESENTS YOUR SIZE?

1. Find your size.
2. The corresponding code is **THE CODE** you use to complete the part number on your order.
Example: 440227__90 Size: M = Code "06", therefore 4402270690

CHOOSING THE RIGHT DRIVE BELT CAN IMPACT POWER & PERFORMANCE

WHAT MAKES CAN-AM BELTS STAND OUT?

One essential material stands among our drive belt components: **PBO Fiber**.

PBO Fiber is the next generation super fiber with excellent thermal stability, great abrasion resistance, and moreover, almost twice the strength and modulus of Aramid fiber.

- > We partner with the best manufacturers in the powersports industry to offer you **unique drive belts** with consistent quality.
- > The **100% cutting-edge PBO high-tensile strength polymer fiber** construction offers high-temperature robustness and prolonged durability.

- > Our engineering teams have perfectly integrated and tested each drive belt to **provide quick throttle response, powerful acceleration, top speed and consistent shifting performance.**
- > We aim at delivering the highest levels of performance and longevity based on **your vehicle's specific end-use and calibration.**

CAN-AM BELT CONSTRUCTION VS. COMPETITORS

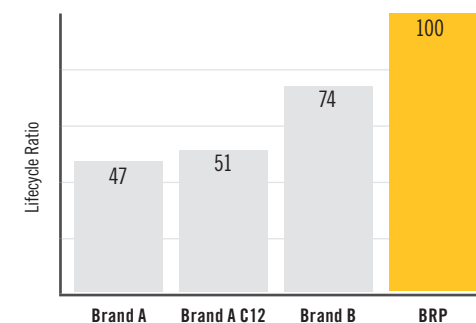

MODULUS & TENSILE STRENGTH

Based on Dynamometer testing, PBO surpasses Kevlar and Carbon Fiber materials in every way.

DURABILITY COMPARISON

Compared to Can-Am's Performance Drive Belt (100% PBO - 422280364).

"I HAVE TESTED ALL BELTS OUT THERE, AND CAN-AM'S DRIVE BELTS ARE THOSE I'M RELYING ON TO WIN RACES."
